

Syllabus: ***MAT 082 Basic Math***

Course Information

Course Prefix/Number: **MAT 082 Section 2**
Semester: **Fall 2018**
Class Days/Times: **TR 3:30P – 4:45P**

Credit Hours: **3**
Course Title: **Basic Math**
Room: **Main Campus, IWK 23**

Instructor Information:

Name: **David Morales**

Phone/Voice Mail: **520-977-6489 (text me too!)**

E-mail: **dmorales@tocc.edu**

Office location:

Office hours: **By appointment**

Course Description:

Fundamentals and applications of arithmetic. Includes operations on whole numbers, fractions, decimal numbers, ratio and proportion, percent, and measurement.

Course Objectives:

Upon successful completion of the course, the student will be able to:

- Add, subtract, multiply, divide and solve word problems using whole numbers.
- Identify place values for whole numbers and decimal numbers.
- Round off numbers and use rounded numbers to estimate answers to arithmetic problems.
- Factor whole numbers into prime factors.
- Add, subtract, multiply, and divide with fractional numbers
- Add, subtract, multiply, and divide with decimal numbers.
- Estimate answers involving fractions or decimals.
- Solve word problems involving fractional or decimal numbers.
- Use ratio and percentage.
- Solve problems using percent.
- Solve word problems involving area and perimeter of rectangles and triangles.
- Solve word problems involving area and circumference of circles.
- Apply metric and American systems of measurement.
- Convert within and between the American and metric systems.
- Find square roots of square integers.

Student Learning Outcomes (SLOs):

After completion of the course students will be able to:

- Use the skills of arithmetic and algebra, in isolation and in application, with and without technologies (including but not restricted to calculators and computer programs).
- Express themselves visually (in graphing functions and) in presenting their answers to real-life problems.

Course Structure:

This course will be operating on a combination of traditional lecture, group activity, and discussions that will enhance the student's knowledge of mathematical concepts. All homework will be done on EducoSoft.

Texts and Materials:

- [Required] Registration in the EducoSoft website (www.educosoft.com). An access code must be purchased through the college's bookstore. This is VERY IMPORTANT and NEEDED!
- [Required] A calculator that is NOT on a cell phone or electronic device.

Evaluation and Grading & Assignments:

Assignment breakdown:	Final Letter Grades:
15%: Homework (every section)	A: 90-100%
10%: Quiz (every section)	B: 80-89%
45%: 9 Chapter Tests (5% each one)	C: 70-79%
15%: Midterm Exam	D: 60-69%
15%: Final Exam	F: <60%

Himdag Cultural Component:

My interpretation of what Nahban said in the Desert Smells Like Rain is this: while the himdag discourages direct, exact answers, in the mathematical world, one is expected to be able to come up with a precise answer for the situation. That being said, there are a few common issues shared:

- Baban (coyotes) are not going to affect your homework or my tests – they didn't write either.
- While one must go through a maze to see i'toi, there was no mention as to how many mazes there were to get to him. Likewise, you will discover in this course that there are many different ways to perform the algebra necessary to see the final answer.
- I-we:tma: for your success and the college's and the community's, you should not go work on mathematics alone – it can be a group activity (except on the tests, of course).
- T-pik elida: we respect each other and ourselves. We respect and take pride in our own work. We respect each other's abilities, quirks and privacy.

Policies and expectations

Student Conduct

- Please be respectful of myself and other students in the class. Disruptive behavior may result in you being asked to leave the class. This includes but is not limited to talking, eating, rustling papers, clicking on electronics, texting or playing with your phone, late arrival and early departures (late arrival to class disrupts the learning activities and is unprofessional and disrespectful towards fellow classmates), any abusive or indecent language. Collegial behavior is required at all times. Turn off cell phones, PDAs, iPods, laptops, and other electronic devices not related to the course before entering the class.
- Cheating in my class is unacceptable. If you are caught cheating, you will be given a zero on that exam or quiz and may result in my filing an Academic Honesty Incident Report which could result in suspension or expulsion from the college.

E-mail Requirement

- All students must activate and regularly check their Tohono O'odham Community College e-mail account. It is mandatory that students use the TOCC e-mail account for all communications with the instructor.
- The instructor will not reply to any non-TOCC e-mail address the student uses to contact him.

Attendance

- The student is responsible for any work missed during an absence. Please email or text me if you will not be coming to class. Any student with more than 3 unexcused absences will be dropped at the 45th day (mid-semester).

Homework

- As you might expect, homework is the essential ingredient in a math grade (25% of course grade with the quiz) and will be assigned regularly for every section.
- All homework will be completed on Educsoft.
- You are permitted to work together on the homework, but you must write up your own solutions to be turned in. They should not be identical to your study partner.

Exams

- There will be a chapter exam given the day after we complete each chapter.
- These exams in total will constitute 45% of your overall grade.
- A midterm and final exam will also be given worth 30% of your overall grade.

Important Dates

- Withdrawal deadline is November 2nd, 2018.

Incompletes

- Incompletes (I): The nature of this course (where you are learning something new every single class) makes it very improbable for an incomplete to be given. However, per TOCC policy, if you have completed $\frac{3}{4}$ of the course and specifically request it, I may consider it. Please call before final exams to assure enough time to consider your request.
- In handing out an incomplete:
 - I am assuming that the student will finish this course on his/her own time.
 - You will receive the form with the "I" grade filled in, with a request as to what must be done to complete the course.
 - You have one year to complete the work, else the grade will revert to an F. Final Grades They will be sent to the address on record. Per FERPA and the Himdag, I will not give grades over the phone and am strongly discouraged from emailing same. (Again, see t-pik elida above.)

In accordance with t-pik elida:

- the Americans with Disability Act 1990 (ADA) and Section 504 of the Rehabilitation Act: if you have a learning problem, physical disability, or medical illness that requires you to have any special arrangements, please inform your instructor at the beginning of the semester so your academic performance will not suffer because of the disability or handicap.
- Title IX: Tohono O'odham Community College faculty and all staff are dedicated to creating a safe and supportive campus. Title IX and our school policy prohibit discrimination on the basis of sex - this includes sexual misconduct; harassment, stalking, domestic and dating violence and sexual assault. Sexual discrimination and sexual violence can undermine students' academic success and quality of life on campus and beyond. We encourage students who have experienced any form of sexual misconduct to talk about their experience and seek the support they need. Confidential support and academic advocacy can be found with: Christie Kelly, MA, Counselor/Title IX Coordinator
ckelly@tocc.edu

DISCLAIMER: This syllabus is designed to evolve and change throughout the semester based on class progress and interests. You will be notified of any changes as they occur.
