Introduces students to the elements and principles of visual design. Includes line, shape, space, value, texture, volume and color. Also includes skill development in organizing these elements and applying the visual principles of harmony, variety, balance, tension, rhythm, proportion, repetition, and contrast.

Course Objectives:

During this course students will explore visual art and design through:

1. Realization & application of the elements of design
2. Realization, application & intentional manipulation of the principles of design
3. Convergent & divergent creative processes
4. Realization and application of various art & design materials
5. Realization and application of various art & design processes and methods
6. Giving ideas intentional form
7. Communication through form
8. Demonstrate self-reflection, formative evaluation and critical thinking

Student Learning Outcomes

Outcome 1: Ability to intentionally manifest ideas in visual form.

Measurement: Students create an art product (i.e., choosing from various media) that gives an idea form and manifests specific content. Product will be assessed by end of term portfolio review.

Outcome 2: Ability to synthesize indigenous, Native, and Himdag ideas and artifacts into personal artistic style and vision.

Measurement: Students create a portfolio of art products using various media that demonstrate an understanding

of cultural synthesis.

Outcome 3: Ability to intentionally manipulate media to specific outcomes.

Measurement: Students demonstrate their ability by using the elements and principles from studio courses to solve visual problems.

Outcome 4: Ability to manifest a personal vision across a range of media.

Measurement: Cumulative evidence ascertained by review of portfolios evidencing a range of student work from admittance to graduation with their AFA.

Outcome 5: Students consciously integrate visual art and design theory and practice into Himgdag.

Measurement: Student portfolios evidence ability to visually communicate O'odham culture. This outcome will be measured by the instructor.

Course Structure:

Students will create 6 (six) separate projects in which they will engage in the intentional manipulation and application of the elements + principles of design through a series of projects that include but are not limited to:

1. Line in space 3D rendering 3D manipulation of wire toward form.
2. Line as value T-So:son rendering. Line as value and expressive mark.
3. Food sovereignty glue print. One of two distinct methods of multiples production: relief and stencil prints.
4. Favorite things value shape collage. Utilization of collage for shape and visual texture effect.
5. Color wheel and indigenous calendar integration. Color: theory, utilization & application to create aesthetic effect & content.
