TOHONO O'ODHAM COMMUNITY COLLEGE

TO: BOARD OF TRUSTEES
THRU: HR AND ADMINISTRATION
FROM: PAUL ROBERTSON, PRESIDENT
SUBJECT: PRINCIPAL ACCOUNTANT CAREER LADDER
CC: EVAN THOMAS, SPECIAL ASSISTANT TO THE PRESIDENT

Background: TOCC Finance Division has had difficulty recruiting a much-needed Principal Accountant to work alongside the Sponsored Program Officer, Ingrid Segundo. In an effort to provide the needed input to that highly burdened office, the concept of a career ladder leading to a principal accountant position is being recommended. A person would be recruited into either the CLI or CLII step on the Career Ladder and would be evaluated and advanced to Principal Accountant as their skills and ability warranted. In the meantime, the College would continue to advertise and to seek a Principal Accountant. Should that position be filled, we would still want to have the Career Ladder for Principal Accountant filled as we need to build capacity in our Finance Division.

Justification: Adding a career ladder for principal accountant would assist the College by “growing our own” and would provide much needed support for our growing fiscal responsibilities as we administer more grants and additional federal funding for COVID relief.

Action Requested: Request approval of a Principal Accountant Career Ladder Position.

Recommendation: President recommends adoption of a new Principal Accountant Career Ladder Position for TOCC.

S-ke:g tas Trustees,

I hope you are doing well and enjoying the transition to fall. I know I am, except for the late sunrise. Narrowly missed stepping on a rattlesnake on my morning run/walk the other day.

I'm writing about our Finance Division. We continue to struggle with personnel, mainly with the lack of personnel and mainly with our inability to fill the position of principal accountant that was approved some time ago. Andriana Jose was in that position but left to work for the Nation several months ago.

One option that I mentioned before was to provide a gateway, through a stepped process, or "Career Ladder" leading to the principal accountant position. That would give us the ability to accomplish some of the needed work while simultaneously training a person who could become the principal accountant. HR Director Sonya Juan put together a plan, a copy of which is attached. Finance personnel Dean Miguel and Sponsored Programs Officer Ingrid Segundo support it.

Because our need is great and immediate I am asking if the BOT would approve the attached "Career Ladder" for Principal Accountant via email so that we could get this needed support for Finance Division.

Respectfully,

Paul Robertson, Ph.D.

S-ke:g si'alig, Paul

I have a question regarding the three positions.

Currently we have the Principal Accountant position advertised so we now add advertise for the additional two positions, CLI and CLII?

Potentially, we could have all three filled simultaneously and the CLI and CLII would be building their way up to the full Principal Accountant category, right?

Just wanted to clarify.

S-ke:g si'alig Ofelia and Trustees,

Thank you for asking that question Dr. Zepeda. Thinking about it helped me think it through and hopefully to present it more clearly.

"In a nutshell", we are asking to add the Career Ladder to Principal Accountant as one additional position. We would attempt to hire a person into the CLI or CLII level depending on their background and experience and they would have a chance to move up the ladder to a Principal Accountant position. (I'm including an "item form" memorandum with this email, and a copy of the current Principal Accountant job description FYI.)

We are also going to take a look at other career ladder possibilities in other areas of the College as well as finance and will report on that in the near future. In the meantime, I am looking carefully at the existing Controller position and possible need to bolster that area in finance.

Please let me know if more clarification is needed regarding the Career Ladder proposal.

Thank you for your consideration,

TOHONO O'ODHAM COMMUNITY COLLEGE

TO: BOARD OF TRUSTEES

THRU:

FROM: DR. TIFFANY VIGGIANO, DEAN OF ACADEMICS

SUBJECT: AMERICAN INDIAN COLLEGE FUND PROFESSIONAL DEVELOPMENT GRANT REQUEST

CC: Frances Benavidez

Background:

The American Indian College Fund, with funding from the Henry Luce Foundation, aims to cultivate a culture of research and faculty excellence at tribal colleges and universities (TCU). In the 2022-23 academic year, the College Fund will award professional development grants to TCU departments or whole institutions for activities that enhance your faculty members' practices, knowledge, and/or skills.

Justification:

We would like the opportunity to fund this project via grant funds rather than department funds.

The Teaching and Learning Showcase provides a needed professional learning opportunity for all TOCC full-time and adjunct faculty. By learning best practices from local experts the instructional team has access to new ideas, methods, and strategies for rooting student learning in O'odham relevancy and adapting lessons to an online learning format as proven effective by their colleagues. It takes much time and effort to create student-centered learning experiences rooted in a worldview that may be different from the instructor. Learning new ideas from peers not only gives new ideas that may be adapted to other instructor's approach but also creates new ideas and creativity amongst the participants when redesigning and/or developing new lessons. Should approximately forty (40) faculty register for the Teaching and Learning Showcase a total budgeted amount of \$7,000.00 will be expended on stipends to faculty presenters and participants.

Action Requested: Approve submission of application

Recommendation: Approve

PROFESSIONAL DEVELOPMENT GRANTS

DEPARTMENTS AND INSTITUTIONS

The American Indian College Fund, with funding from the Henry Luce Foundation, aims to cultivate a culture of research and faculty excellence at tribal colleges and universities (TCU). In the 2022-23 academic year, the College Fund will award professional development grants to TCU departments or whole institutions for activities that enhance your faculty members' practices, knowledge, and/or skills. These grants can be used to:

- bring in an outside facilitator to conduct a workshop or training for faculty.
- enroll a group of faculty in a workshop, course, or training offered by an external organization (online or in person). Travel expenses may be included in your budget.

The workshops, courses, and trainings can cover a wide range of focus areas that meet a high need for your department or institution, such as:

- accreditation, assessment, engaging students in an online environment, best practices in online instruction, conducting and/or disseminating scholarly research, developing and integrating cultural resources into curriculum, and more.

AWARD AMOUNT

This grant program has a total of \$10,000 available for the 2022-23 academic year. Once the funds are exhausted, we are unable to make additional awards until the next academic year.

The maximum amount you can apply for is \$10,000. However, we expect most grant applications will request less than this amount, which will allow us to support more TCUs. The full amount of the grant must be used for professional development activities for faculty members (defined as permanent faculty and adjunct instructors).

DEADLINE DATE

Applications will be accepted on a rolling basis through June 30, 2022 or until the full \$10,000 has been awarded, whichever comes first.

APPLICATION CHECKLIST

- ☐ Application form completed by a college official (e.g., dean, department head, president)
- ☐ Letter outlining the need for professional development and detailed explanation of how you will use the grant to meet that need
- ☐ Documentation of the proposed workshop, course, or training opportunity
- ☐ Detailed budget, including a preliminary list of participating faculty, in a Word table or Excel spreadsheet

SELECTION PROCESS

The College Fund will review applications using the following criteria:

- Clearly demonstrated need for large-scale faculty professional development.
- Ability of the workshop or training to strengthen and improve faculty members' teaching, leadership abilities, knowledge, and/or skills.
- Potential to enhance the culture of research and faculty excellence at the TCU.

Applications will be reviewed on a regular basis and applicants will be notified as soon as possible about the success of their application. The application review process may take 2-3 weeks.

REPORTING REQUIREMENTS

If awarded, the applicant will send the following information to the Faculty Development Program Officer two weeks after the event:

- A list of participating faculty members and their titles
- A short bio for each participant (approx. one paragraph)
- A ½-1 page summary of the event *from each participant* discussing what was learned and how the information will be incorporated into their teaching, research, and/or community/tribal engagement efforts.

If you have questions or wish to discuss your idea before submitting an application, do not hesitate to contact Heidi Normandin, Faculty Development Program Officer, at 303-426-9909 or hnormandin@collegefund.org.

Thank you for your interest in our professional development grants. We look forward to receiving your application!

RE: Professional Development Grants- American Indian College Fund

Dear Review Committee:

The Tohono O'odham Community College (TOCC) is seeking \$7,000.00 from the American Indian College Fund's professional development grant. TOCC's Faculty Development Committee will use the funds to host a Teaching and Learning Showcase in May 2023 to share best practices in two areas (1) integration of the O'odham Himdag into the curriculum and (2) use of technology to enhance and promote student learning. What follows is a description of the showcase, budget, and preliminary listing of participating faculty.

Description: Teaching and Learning Showcase

The Teaching and Learning Showcase is a professional development opportunity designed to bring adjunct and full-time faculty together to learn best practices in integrating the O'odham himdag into the curriculum and use of technology to enhance and promote student learning. Given the unique mission of TOCC this professional development is geared toward building on the strengths of instructors who are equipped with localized methods for optimizing student learning at TOCC rooted in O'odham knowledge systems.

To ensure presentations center around the two identified themes, the Faculty Development Committee will send a call for proposals in mid-April 2023 seeking ten adjunct and/or full-time faculty proposals. The presenters will be asked to identify one of the two topics they will focus on when presenting at the teaching and learning showcase. Priority will be given to presentations that include either one or both of the topics:

1. integration of the O'odham Himdag into the curriculum, and
2. use of technology to enhance and promote student learning.

Both identified topics are high need training areas. Prior to the pandemic TOCC taught nearly 100% of its courses in-person and has since transitioned to about 90% online instruction either in a synchronous and/or asynchronous learning environment. Further, TOCC continues to hire new faculty to meet the growing enrollment of the student body, which has increased from approximately 300 students pre-pandemic to nearly 1,000 students. Thus resulting in many instructors being new to adapting their curriculum to meet the unique mission of TOCC which integrates all areas of student learning in O'odham knowledge systems. A teaching and learning showcase led by local instructors provides an

opportunity for the TOCC instructional team to learn from local experts' methods and strategies that work for them when serving the same demographic of students. By the end of the training instructors will have new ideas, methods and strategies for integrating the O'odham Himdag into the curriculum and/or using technology to enhance and promote student learning.

Budget

For this faculty development, TOCC is requesting \$7,000.00 to cover the cost of approximately forty stipends: ten (10) faculty presenters and thirty (30) participants. Presenters will be compensated \$250.00 for their presentation and the participants will receive \$150.00 for attending and documenting how they will use their new knowledge in their teaching.

Adjunct/Full-time Faculty	Number	Amount	Total
Presenters	10	\$250.00	\$2,500.00
Participants	30	\$150.00	\$4,500.00
Total:			\$7,000.00

Preliminary List of Participating Faculty

TOCC has approximately fifty (50) adjunct and full-time faculty combined. Based on general attendance patterns the faculty development committee anticipates approximately seventy-five percent (75%) of the instructional team participating. Included here is an anticipated list of participating faculty.

Conclusion

The *Teaching and Learning Showcase* provides a needed professional learning opportunity for all TOCC full-time and adjunct faculty. By learning best practices from local experts the instructional team has access to new ideas, methods, and strategies for rooting student learning in O’odham relevancy and adapting lessons to an online learning format as proven effective by their colleagues. It takes much time and effort to create student-centered learning experiences rooted in a worldview that may be different from the instructor. Should approximately forty (40) faculty register for the *Teaching and Learning Showcase* a total budgeted amount of \$7,000.00 will be expended on stipends to faculty presenters and participants.

Thank you for considering this request.

Funding Agency: American Indian College Fund

Funding Number:

Letter of Intent required? Not required

Due Date (if applicable): Rolling

Grant Submission Date: ASAP

Entity for proposal submission Professional Development Grant: Departments and Institutions

Maximum Award: \$10,000

Duration of grant: One time

(Note: if match required, specify how much, and type, i.e., cash, in kind, etc.)

Amount (%):

Department or Division Requesting Grant: Department of Academics

Background and Justification:

The Teaching and Learning Showcase provides a needed professional learning opportunity for all TOCC full-time and adjunct faculty. By learning best practices from local experts the instructional team has access to new ideas, methods, and strategies for rooting student learning in O'odham relevancy and adapting lessons to an online learning format as proven effective by their colleagues. It takes much time and effort to create student-centered learning experiences rooted in a worldview that may be different from the instructor. Learning new ideas from peers not only gives new ideas that may be adapted to other instructor's approach but also creates new ideas and creativity amongst the participants when redesigning and/or developing new lessons. Should approximately forty (40) faculty register for the Teaching and Learning Showcase a total budgeted amount of \$7,000.00 will be expended on stipends to faculty presenters and participants.

Objectives

The Tohono O'odham Community College (TOCC) is seeking \$7,000.00 from the American Indian College Fund's professional development grant. TOCC's Faculty Development Committee will use the funds to host a Teaching and Learning Showcase in May 2023 to share best practices in two areas (1) integration

of the O’odham Himdag into the curriculum and (2) use of technology to enhance and promote student learning. What follows is a description of the showcase, budget, and preliminary listing of participating faculty.

Methods

How the project will meet the TOCC Mission and Strategic Plans:

1D. Develop a stronger emphasis on O’odham language and culture in the everyday life of the College community.

5E. Critically situate faculty and employees within the historical and social context of the Tohono O’odham Nation and indigenous peoples.

SUBJECT: SPOTLIGHT ON HUMANITIES GRANT APPLICATION REQUEST

CC:

Background:

Spotlight on Humanities in Higher Education:

<https://www.neh.gov/program/spotlight-humanities-higher-education>

“The Spotlight on Humanities in Higher Education program supports the exploration and development of small projects that would benefit underserved populations through the teaching and study of the humanities. Eligible applicants include small- to medium-size two- and four-year institutions of higher education and nonprofit organizations whose work advances the humanities at these institutions and among their faculty and students. NEH especially welcomes applications from Native American and Indigenous institutions, Historically Black Colleges and Universities, Hispanic-Serving Institutions, Asian American and Native American Pacific Islander-Serving Institutions, Tribal Colleges and Universities, minority-serving institutions, community colleges, rural colleges and universities, schools that have a majority-minority undergraduate enrollment, and those that serve significant numbers of first-generation and nontraditional students.”

Justification:

We seek to consult with community experts on their approach to historical storytelling. From this process we hope to empower students with skills to document their own history and create paths towards meaningful employment as storytellers. We will convene a taskforce to discuss integrating humanistic storytelling across the curriculum, creating paths to four year degrees and employment.

The Spotlight grant is the first submission, but we also plan to use this organizing process to prepare us to submit for a larger humanities grant in February (\$150,000 to fund TCUs Humanities work).

Action Requested:

Approve moving forward with grant application.

Background and Justification:

We seek to consult with community experts on their approach to historical storytelling. From this process we hope to empower students with skills to document their own history and create paths towards meaningful employment as storytellers. We will convene a taskforce to discuss integrating humanistic storytelling across the curriculum, creating paths to four year degrees and employment.

Objectives

Design indigenized humanities coursework to be integrated across the curriculum, empowering storytelling and employment as storytellers.

- Consult community elders and members about storytelling and oral history methodological knowledge
- Design a capstone and or introduction to humanities course within AALA about storytelling from an indigenous perspective.
- Develop a story telling taskforce from multiple disciplines to consider ways to integrate humanities storytelling focus across related disciplines.
- Identify and build pathways for students to continue to learn about storytelling and become employed as storytellers.

Methods

Consult community elders and members about storytelling and oral history methodological knowledge

Approach: Event to invite those from community to contribute their stories and thoughts on approaches to storytelling. Students and faculty collaborate to facilitate discussion with community elders. Event is videoed under the direction of faculty with participation of students. Students gain experience documenting histories while learning about methodologies of storytelling.

Guiding Questions: From an indigenous perspective, what must be included? What shouldn't? Do we need more than one course? Which courses? Which modalities? What community projects could teach and empower storytelling by embedding participation in curriculum?

Core Outcome 1: Identify community elders willing to contribute to building the curriculum
Develop a story telling taskforce from multiple perspectives to consider ways to/begin to integrate humanistic storytelling throughout the curriculum

Approach: Host reoccurring sessions with TOCC/SCAC professors of literature, language, history, philosophy, drama, film, etc. (as well as cultural mentors identified at the aforementioned event) to build curriculum. Invite and visit representatives from partner institutions to begin building 2+2 agreements and career placement. Focus on oral tradition of storytelling because the Tohono O'odham are traditionally an oral society. Pay honorarium to contingent faculty, cultural mentors, and consultants invited to participate in this work.

Guiding Questions: How can students learn about humanities through oral traditions/ multiple modalities (written story, written plays, and film)

Core Outcome 2: Design a capstone and or introduction humanities course within AALA about storytelling from an indigenous perspective.

Core Outcome 3: Develop 2+2 partnerships where students can continue to gain skills necessary/ access to opportunity to be professional storytellers

How the project will meet the TOCC Mission and Strategic Plans:

1D. Develop a stronger emphasis on O'odham language and culture in the everyday life of the College community.

- 2H. Continue work with San Carlos Apache College site toward their independent status.
 3A. Provide two or more 4 Year Degrees and/or 2 + 2 opportunities.
 5E. Critically situate faculty and employees within the historical and social context of the Tohono O'odham Nation and indigenous peoples.

TO: BOARD OF TRUSTEES
THRU: DR. PAUL ROBERTSON, PRESIDENT
FROM: JAY JUAN, CHIEF OF OPERATIONS
SUBJECT: POLICY FOR SPACE ALLOCATION PROCESS
CC:

Background: Recent additions to Faculty and Staff has highlighted the need for a process in assigning office space.

Justification: This policy provides a detailed approach to understanding how space is assigned and the responsibilities each department has in using said space. A step by step process in requesting and assigning work space.

Action Requested: Review and approval as College policy for Space Allocation.

Recommendation: Approval

Space is a limited College resource and, consequently, it must be managed responsibly and in a way that promotes the advancement of the College's mission and alignment with its strategic priorities.

Flexibility needs to be maintained by all in order to address changes in function, curricula, programs and technologies. Accordingly, a comprehensive framework for assignment and management of office space has been established to achieve best utilization and respond to current and emerging needs.

This policy provides general guidelines for the allocation of office space to the programs within all the departments/divisions on campus.

Campus facilities and property exist to serve primarily the educational mission of the College. Activities occurring in a campus facility or on campus property must be an appropriate use of that space at all times.

The purpose of this policy is to provide for the effective and efficient use of TOCC's space resources resulting in:

- (i) a quality learning and working environment for students, faculty and staff;
- (ii) effective management of space to meet the strategic vision and mission of the College; and
- (iii) the cost effective utilization of space.

In addition, this policy provides a framework for the regular review of TOCC's space needs and use of its physical assets and a basis for the procedures to be followed in relation to the assignment of space and the relocation of staff. All space at TOCC belongs to the College. TOCC will allocate and assign space to best support and further TOCC's academic mission and priorities. The President shall designate an individual to serve as a monitor for the purpose of overseeing all space, whether leased or owned, at TOCC. The President's designee shall assure compliance with state and federal laws.

- All faculty and staff will be provided with a suitable working environment for the type of work they perform.
- Office space will be provided to departments to adequately support their core missions and functional needs.
- Office space, like all space, is College property and is allocated to a given department (not to individuals), as available, in a manner that best advances College strategic priorities. **No department “owns” space that has been allocated to it.**
- Office space allocated to a department can be reassigned to another department in response to College needs and priorities at any time.
- Office space, like all College space resources, should be deployed in the most efficient and effective manner to best serve programmatic and strategic priorities.
- Each department should manage its office space needs within the space that has been allocated to the department at any given time and should be used to maximum functionality and efficiency.
- Shared office and open office arrangements are encouraged whenever possible to efficiently use the College’s limited space.
- Conference rooms and office service spaces are encouraged to be shared among one or more units whenever possible to maximize space utilization. All conference rooms shall be available to all departments and should be scheduled for faculty and staff use via SchoolDude.
- Office space vacated due to a substantial reduction in program size, reduction in workforce, or program elimination resulting in office space being unoccupied reverts back to the college space pool to be maintained by Operations-Facilities Maintenance under the direction of the Chief of Operations.
- Offices will be assigned based on need, availability, and suitability for the intended use.
- Assignment of multiple offices for individual faculty and staff members is not permitted unless there is a true demonstrated need.

Under such circumstances, a faculty or staff member may be assigned a secondary office (ideally in a shared arrangement), provided it is not located in the same building as the primary office. All decisions related to multiple offices will be made on a case-by-case basis and require the approval the Chief of Operations.

- Each department should ensure that all allocated space is occupied. When offices are left unoccupied for significant periods of time, departments should use these spaces to alleviate pressing space needs. If an office space remains under-utilized for a period longer than one year, the department may be required to provide a justification for maintaining use of the space.
- When possible, if departments desire to consolidate their space assignments for reasons of academic interaction and administrative efficiency, contiguous spaces will be provided. However, close proximity cannot be guaranteed depending upon the space and financial resources available at any given time.
- Periodic evaluation of office space allocation should be made by the department head to insure that all office space is being used to maximum functionality and efficiency.
- Official space inventory reports recording all office space allocations will be maintained by Operations-Facilities Maintenance.
- To support an accurate and complete record of space allocations, departments will verify office space allocation and names of personnel assigned to occupy specific rooms to Operations-Facilities Maintenance on an **annual basis**. This request will be sent out at the department level by the Chief of Operations.
- Office space may not be assigned to non-campus organizations without prior approval from the President and the Board of Trustees.
- Employees and organizational departments are responsible for the facilities assigned to them—to use them effectively, efficiently, and respectfully. This responsibility does not allow them to make modifications to facilities without the expressed approval of the Chief of Operations.

- Willful damage or alteration to a campus facility (property) by an assignee will result in the assignee bearing the cost for all repairs.
- All maintenance and repair work, renovations, alterations, demolitions, etc., must be administered by Operations-Facilities Maintenance Department.

Definitions:

Office space: Space that includes offices, office service spaces, and conference rooms specifically assigned to support the Colleges academic, administrative, and service functions.

Office: A space housing faculty, staff, or students working at one or more desks, tables, or workstations configured as a private office, shared office, or open office with or without cubicles.

Request for New Office Space or Change of Space**Step by Step:**

1. Dean/Director(Requestor) will email Chief of Operations requesting space with justification
2. Chief of Operations will review the request and check for availability
3. Request will be discussed at Leadership meeting
4. Decision will be provided to Requestor

SUBJECT: **TRACK UPDATE**
DATE: OCTOBER 3, 2022
CC: EVAN THOMAS, SPECIAL ASSISTANT TO THE PRESIDENT

Background:

I was contacted by Mrs. Kristine FireThunder, Policy Advisor for Tribal Affairs in the Office of Governor Doug Ducey, regarding funding available through the Arizona State Parks & Trails Office. Funding was available to help refurbish the track behind the intermediate campus in Sells.

Justification:

The track would serve several purposes. TOCC would train and compete on the track, potential hosting meets in the future as well as holding clinics for Jegos Runners to share with youth on the Nation. Local schools can utilize the track to host events tailored to their grade levels. Lastly, community members can continue to walk the track at their leisure.

Action Requested:

Requesting support of approval to continue discussions with the BUSD Board and connecting on a future MOA or IGA. As well as requesting support from Grant writing staff to assist in going after funds available.

Recommendation:

Eligible ARPA applicants are state, county, municipal, tribal governments, and non-profit organizations. Funds can be used to provide upgrades/improvements to existing facilities/programs due to the impact of COVID.

City/Town: Sells, Arizona

Amount of Funds Requested: \$500,000.00

PROJECT DESCRIPTION

Please describe your proposed project in 300 words or less. Describe how the COVID-19 pandemic has affected your proposed project and/or your community and how these funds will improve these areas and meet a need. Project must be shovel ready and completed by 12/31/2023.

This funding request will refurbish an old asphalt track for the Tohono O'odham Nation community (the "Nation"). Currently, there are 3 tracks on the Nation, 2 dirt and one asphalt track. The asphalt track sits behind the Baboquivari Unified Intermediate Campus (4-6 grade), which was previously the High School campus ("BUSD"). The refurbished track will allow schools to train and compete with lanes and other amenities that are needed to host a track & field meet.

During the time of COVID, many community members were unable to compete, train or even go for walks as much of our Nation was locked down. The goal is to

bring the track back to allow schools, community members and for Tohono O'odham Community College's ("TOCC") new running program to finally flourish. TOCC started its Cross Country Program at the end of 2019 with recruiting at the beginning of 2020. Since this time the program has seen significant challenges with closed dorms, event cancellations, quarantines, and safety precautions. It has always been the goal to bring TOCC's running program to the community of the Nation. To host events, have clinics and camps for future Jegos Athletes.

The project will be in coordination with TOCC and BUSD. The track will be a training ground for TOCC Jegos Athletes, Baboquivari Warriors and for younger generation of runners to begin their track & field journeys. As Head Coach of the TOCC Jegos, my goal is to have running on our Nation a staple based on a strong foundation. This project and funding will assist in getting us further ahead.

Explanations to questions:

Sponsor will be required to make the track accessible for the public which could be incorporated in the project. This may include a wider fence opening and some sort of ramp to access the track. Sponsor stated the school is very supportive of the project however may need to have a fiscal sponsor to pay invoices for reimbursement. This project may qualify for American Rescue Plan Act funding which would include a one-page summary of the project with estimated costs which grant staff will forward to the governor’s office for approval. If approved, this project will not require any match and must be

completed within 2 years of award. All projects must be approved by one of our advisory committees and the Arizona State Parks Board. Applications are due at the beginning of any month for the Board to be able to review during that month. The Board does not meet in July and possibly August. Unless the application is completed by the end of May will have to wait until August/September for review. Maximum award is \$500,000 and suggested the sponsor put in contingency for unanticipated costs increases due to the lag in submission and Board approval. This funding is limited and recommend the application be filled out as soon as they have a plan. Design and engineering costs could be included in the cost of the grant. Staff emphasized that they would be willing to assist with any portions of the grant while the application is in draft.

Information on our grants can be found at: <https://azstateparks.com/grants/>.. It would be the LRSP funding opportunity which stills has ARPA funding available. If approved, reimbursements can be made at any time, does not have to wait for project completion. Attached is the required one-page form to forward to state parks which must then be sent to the governor's office for approval. Attached is also a blank application which can be found on our on-line grant system.

Background and Justification:

The From Learning to Leading: Cultivating the Next Generation of Diverse Food and Agriculture Professionals (NEXTGEN) funding opportunity offers the Tohono O'odham Nation the prospect of developing its own professional-level of human resource capacity.

Objectives

The primary goal of this grant is to build and sustain the next generation of the food, agriculture, natural resources, and human sciences (FANH) workforce. This includes the future USDA workforce, primarily through providing student scholarship support, meaningful paid internships, fellowships, job opportunity matching, and facilitating opportunities to learn the processes and pathways leading to training and employment in the federal sector.

Developing outreach strategies to highlight agriculture's relevance to younger generations, including future professionals, scientists, and thought leaders, and the critical opportunity to participate in public service and build an effective, equitable, and accountable Tribal Government. Showcasing the vast and rewarding career opportunities in food and agriculture may attract youth and other audiences to train and prepare for employment in the broader agricultural enterprise and related disciplines.

Methods

We plan to carry out three types of projects: a) Student scholarships, b) Experiential learning, c) Outreach and engagement to (1) Implement strategies to increase exposure to career disciplines related to food, agriculture, natural resources, and human sciences before, during, and after college for tribal students and (2) engage collaborators outside of TOCC to synthesize creative options for training students.

Over five years of the grant, LGOS will offer twelve paid internships per year to students in different cohorts: Last year's TOCC students, TOCC first-year students, and high school students. They will be exposed to experiential and professional experiences at various partner institutions at state and national levels. They will visit the TON Department of Natural Resources, San Xavier Co-Op Farm, the University of Arizona, UArizona Indigenous Resilience Center, USDA quarters in Washington DC, and the Smithsonian Museum. These visits will build leadership skills and expose interns to experiences and potential job opportunities for the future.

How the project will meet the TOCC Mission and Strategic Plans:

This project will support the strengthening of individuals and families of the Tohono O'odham Nation by developing a professional core of tribal students. The project is aligned with TOCC's goals to:

- To strengthen academic learning that will reinforce a strong competitive spirit to participate in an ever-changing society.
- To establish a training core that will enable the students and the broader community to meet future challenges.

Key Issues/Items addressed in **September 2022**

Issues/Items	Discussion/Situation	Summary/Resolution
Workforce and Community Development (WCD)	Culinary Arts Program (CUA) and the Tohono Kosiin	<p>The renovations in the Tohono Kosiin continue. Operations is working with a restaurant supply company, and they are making good progress. We expect to install most of the equipment in the next 4 to 6 weeks.</p> <p>We are also exploring alternative uses of the Kosiin for training students with a different education model. Our conversation with BUSD continues to determine whether to remain in collaboration with them or to end the IGA.</p>
	GED program	<p>The position for the GED instructor is still open. We had the planned interview, but we did not offer the position to the applicant. However, we received two applications, and we are planning to interview them in October. Students continue working with the math and a part-time tutors hired by the program. Our students will take the GED test in October.</p>
	Solar Panel Installer Certificate	<p>We have four students enrolled in the core skills class and we will have the basic electricity class in the spring with a part-time instructor. We are working with the Financial Aid office to give students access to monetary support. Also, we are sending the job description for Board approval for the solar program instructor.</p>
ANA Grant	Requesting a no-cost extension of the GIS grant	<p>We sent the request for the no-cost extension. We are working with the agency, and we were unofficially approved for an extension until June 30, 2023. We are waiting for the official approval.</p>

NTIA Grant	Initial Activities	<p>We had a productive conversation with grant officers at the kick-off meeting. They provided very useful advice on how to conduct the first community needs assessment and on planning of the beginning of the project. We are also submitting the job descriptions for the grant personnel for Board approval. We had a meeting with AIHEC representatives. They are providing support to select the appropriate curriculum that we will use in the basic skills training that the grant will provide to community members. They gave us some contacts and we will have some meetings with the suggested companies in the next few weeks.</p>
LGOS	USDA-NIFA Grants	<ul style="list-style-type: none"> • Equity Grant. We started developing the curriculum for the training on traditional agriculture. We are planning to start offering the training on introduction to agriculture to the general community in the spring 2023. • Extension Capacity Grant. The grant's main purpose is to create community gardens in the eleven main nation districts. We started collaborating with two districts and the plot planning and soil sampling has begun. • First Americans Land Grant Consortium (FALCON) Annual Meeting. The FALCON meeting will take place in Albuquerque in October. We will take two interns from the Agricultural and Natural Resources program to present the results of the mentioned soil testing. • USDA NextGen Grant. The Land Grant 1994 Institutions (TCUs) were encouraged to apply for this grant. The purpose of the grant will be to provide scholarships, experiential learning, and outreach support to students in tribal communities. The call for proposals recommends creating collaborations with higher education institutions that are land-grant and minority-serving. We are planning to submit a proposal that will aim to support students at TOCC in completing the Associate Degree and then move to the University of Arizona to complete the bachelor's degree. The grant will provide scholarships and academic support to participating students.

IT Department	IT	<ul style="list-style-type: none"> • Online Payment System. We are working with the Transact Company to allow students to pay their bills online. The system will also facilitate sending financial aid and emergency aid directly to students. We are planning to have the system running by spring 2023. • Data Hub. We received the first draft of a dashboard built by our IT consultants to provide real-time information on student population profiles, such as gender, programs, graduation rates, etc. • Resource Inventory. We are conducting a resource inventory to update equipment and to improve student, faculty, and staff IT support. • New Support Staff. We continue training the new support staff, June Starr and Shawn Nez. They are being trained in Azure, Google Suite, and other systems that IT oversees for the technology needs of the college.
Institutional Effectiveness Office	IPEDS Reports	<p>Ben Jose has been working with the different areas of the college to collect information to write the IPEDS report. That report is a collective effort and, under Mr. Jose's direction, we are planning to submit the second week of October for this cycle report to the US Department of Education.</p>

Sylvia Hendricks- Director of Student Life
Key Issues/Items addressed in September 2022

Issues/Items	Actions/Assessment
Director of Student Life meetings, activities & training.	<p>Essential Meetings and events on behalf of planning and important information essential to Student Life and the college as a whole:</p> <ul style="list-style-type: none"> • The month of September was like all other months just as busy. With changes of personnel, filling positions, attending meetings with a big focus in getting the O'odham Tash Week reestablished through planning and working together with other divisions to make it successful for students, staff and the community • I've attended all Leadership meetings with other team members held every two weeks on Monday mornings at 9:05 am. Participating in discussions and planning on a number of items presented by President Robertson and providing updates on Security, Athletics, the Food Program and the Residence. • I continue to attend most of the weekly O'odham Niok Sessions with other staff members on Mondays at 8:30 am, unfortunately I've missed a few of these sessions due to work and personal obligations. And some have been cancelled due to other activities and meetings scheduled • I continue setting up and attend the Himdag Committee meetings on zoom, regular meetings scheduled every two week on Tuesday. Along with other committee members taking turns on facilitating the meetings. And as we continue to work on cultural activities and planning events on behalf of the college. The committee continues to focus on Mental and Physical Wellness for employees and students. As mentioned earlier the focus for September was the planning and reestablishing the O'odham Tash annual event. • I have returned to working onsite fulltime due to the changes of personnel and activities and meetings occurring throughout the month of September.

	<ul style="list-style-type: none"> • The following are additional events/meetings I attended and conducted during the month of August: (most of the meetings held virtually) <ul style="list-style-type: none"> ○ College wide Individual Cleansing- 9/2/2022 ○ O’odham Tash Sub Committee Meeting- 9/6, 13... ○ Meeting w/Residence (Virtually)- 9/9/2022 ○ Special Himdag Committee Meeting- 9/14/2022 ○ Meeting w/RAs- 9/14/2022 ○ Meeting w/Head Cook- 9/15/2022 ○ Meeting w/President- 9/23/2022 ○ Admin Meeting- 9/27/2022 ○ Presented Welcoming for O’odham Tash- 9/26/2022 ○ Organized Cemait Contest- 9/27/2022 ○ Student Life Fun Walk/Run & O’odham Running Presentation- 9/28/2022 <p>I’d like to highlight a few events & meetings conducted and or attended for your information:</p> <ul style="list-style-type: none"> ➤ I continue to work and meet with the areas I oversee on progression and updates on projects that they are working on. ➤ There has been a change in staffing in the Residence Department due to the recent resignation of Gabriel Valencia. I am presenting overseeing that area with assistance from Ms. Alberta Espinosa and Frances Benavidez. Alberta works closes with student in the counseling area and I have asked Frances if she would like to reside in the Residence Life Coordinator’s living quarters to ensure that we have someone onsite after hours, which she graciously agreed to until the position is filled. I also instructed Gabriel to work on getting RAs hired before by the end of his 2 week resignation notification which he did and did a great job. We now have 3 RAs one for each dorm. ➤ The Himdag Committee along with division representation from Student Services, Education Language Department, and Student Life working together in planning the Annual O’odham Tash Event or rather reestablishing it after a 2 year postponement with activities held onsite and presentation presented onsite and virtually. I will attach the agenda and flyers to my report. ➤ I am also presently working on the Annual 2022 Campus Safety and Security Survey that provides any crimes that have occurred during the 2021 calendar year. The deadline to get all information entered is October 19, 2022 which I have set October 14, 2022 to lock the report and have it posted on the website. We are now only reporting 4 campuses, S-Cuk Du’ag Maščamakuḍ, Wişag Koş Maščamakuḍ. San Carlos Site, and S-Ki:kig Maščama Ki:. Komckuḍ E-Wa:’osidk Maščamakuḍ has been eliminated as we do not occupy that site anymore.
Food Program Information	<p>The renovation of the I-Wemta Ki: Kitchen to enlarge it has been completed and Gracie Garcia, Head Cook has moved back into the kitchen and has been serving meals there since Wednesday 9/20/2022. She loves the kitchen is very happy with the industrial stove, new sink and just the overall enlargement of the kitchen.</p>

	<p>We are planning a luncheon later on during the month of October for the Facility staff, Apprentice program and all that took part in the planning and remodeling of a much needed update of our kitchen that serves our students and staff.</p> <p>In working with HR we have finalized the process on bringing in a new Assistant Cook and he will be starting on October 10th with an orientation and finalizing paperwork with HR then will start with Gracie in our new updated kitchen.</p> <p>The Lead Cook also continues to shop weekly for Food Supplies and sometimes will use an extra day when she is preparing for an event</p> <p>The Lead cook also continues to work with other division on providing meals for events.</p>
Community relations and outside college contacts	Collaboration with other entities have all been done virtually due to the ongoing Pandemic situation in Arizona and the nation. But we continue to collaborate with the different division here at TOCC.

Chairman Stanley Cruz
Pisinemo District
Highway 86 & Route 21 Mile 1,
Sells, Arizona 85634

Dear Chairman Stanley Cruz,

In 2007 Tohono O'odham Community College ("TOCC") and the Pisinemo District ("District") entered into a lease to provide payment to cover administrative costs related to the building of a satellite college campus. The Agreement's costs were intended to compensate the District for administrative costs and other impact costs from the design, construction, and operation of the satellite campus. TOCC did not build a satellite campus. Nevertheless, TOCC has continued to pay the impact lease annually. TOCC has paid nearly \$10,000/annum for the last several years, funds the College could be using to benefit its students and accomplish its mission.

Given that the purpose of the agreement is moot, TOCC is proposing an amendment that would end responsibility to pay annual costs for impacts when there are no impacts. Proposed language for two options is provided in two attachments to this letter and we hope that one or the other will be found to be satisfactory. We look forward to working with the District to amend the existing impact lease agreement.

Sincerely,

Paul Robertson
President

Attachments:

1. Option 1: Proposed Amendment to Terminate Agreement
2. Option 2: Proposed Amendment to Suspend Payments

Option 1 – Termination of Impact Lease between TOCC and Pisinemo District

**AMENDMENT TO AGREEMENT
TERMINATION OF AGREEMENT**

This Amendment #1 to the Memorandum of Agreement (“Agreement”) originally executed on May 16, 2007. Tohono O’odham Community College (“TOCC”) and the Pisinemo District (“District”) entered into an agreement to provide payment to cover administrative costs related to the building of a satellite college campus. Pursuant to Section 6 of the Impact Lease, the parties amend the impact lease. The original Agreement will remain unchanged except for all language or provisions that conflict with the following amended changes.

Whereas, the TOCC entered into an agreement to provide payment to the District to cover administrative costs related to the building of a satellite college campus. However, TOCC abandoned this project and there have been no other projects by TOCC completed on the leased land.

Whereas, the TOCC has paid the District annually since 2007. The District will not incur administrative costs since the TOCC has determined to not use the land leased.

Whereas, TOCC seeks to amend the original agreement to reduce administrative costs paid by the TOCC to the District since TOCC has opted to not proceed with the satellite campus as planned.

Section 9. Termination of Agreement

The Agreement executed on May 16, 2007, is hereby terminated.

AGREED, UNDERSTOOD, AND EFFECTIVE this ____ day of _____ 2022.

SUSPENDED PAYMENTS**

President Robertson: I have reviewed your two options and discussed the same with Chairman Cruz. The approach that the Pisinemo District ought to be considering is as follows:

At such time as the College enters into a Sublease with Traveling Eagle, the District would terminate its Lease between the District and the College. The Memorandum of Agreement only is effective while there is an operational lease.

President Robertson,

Unfortunately our second meeting for October is this evening and next Tuesday's meeting is for Legislative reports. If you would like to schedule for next month, the in person meetings will be November 3rd, and the 8th. Let me know if one of these dates will work for TOCC. Thanks.

S-ke:g tas:

I hope you are doing well. We're already at midterm of the semester and time is moving more quickly than ever it seems.

We visited recently about amending the 2007 Impact Lease between TOCC and Pisinemo. The letter appended to this email includes two possible avenues to amend that lease. Can we present these at an upcoming District meeting?

Thank you for your consideration,

Paul Robertson

This Amended Agreement shall become effective as of the last date on the signature page(s) hereof (the "Effective Date").

NOW WHEREFORE, in consideration of the mutual promises, conditions, and terms contained herein, the Parties adopt this Amended Agreement to provide in its entirety as follows:

ARTICLE I. PURPOSE

The purpose of this Amended Agreement is to set forth the understanding of the Parties as to the terms and conditions under which TOCC will provide academic programs and courses, as well as educational support services and programs of study for SCAC as an additional location of TOCC that operates geographically apart and independent of the main campus of TOCC, in accordance with the HLC standards. SCAC will expedite the process of attaining independent accreditation from the HLC in accordance with the latest applicable HLC Eligibility Process and Candidacy Guidelines. The Parties further understand and agree that SCAC intends to become a "tribally controlled college," as defined in the Tribally Controlled Community College Act, 25 U.S.C. § 1801, *et seq.*, renamed the Tribally Controlled College or University Assistance Act in 1998, to serve the higher educational interests of the Tribe once it attains independent accreditation from HLC.

EXHIBIT A:

TOCC DUAL ENROLLMENT POLICY

A Dual Enrollment student at Tohono O'odham Community College shall be defined as a high school student (pursuant to Arizona Revised Statute (A.R.S.) 15-1821.01 (2, 6, 7)) enrolled at TOCC and a high school, seeking credit to be applied toward a high school diploma and a college program of study/major simultaneously. This is different from a Concurrent Enrollment student who is enrolled at both institutions at the same time but not seeking to have credit applied toward a high school diploma.

A Dual Enrollment Course shall be offered pursuant to A.R.S. 15-1821.01 (3), which includes courses numbered 100 or above, transferable to a university or to an approved community college program. Physical education courses will not be offered as dual enrollment.

All Dual Enrollment students must meet enrollment criteria (i.e. placement scores, course prerequisites, etc.) as identified in the current course catalog pursuant to A.R.S. 15-1821.01 (2).

A Dual Enrollment student must also be enrolled at a high school within the State of Arizona. Exemptions will be made for out-of-state schools with an established Intergovernmental Agreement (IGA) (i.e. residential boarding schools).

A high school student may seek Dual Enrollment Credit independent of an Intergovernmental Agreement with a school district. In this instance, a student must submit the Underage/Dual Enrollment Permission Form as it will serve as the contract between the high school and college. If the high school agrees to honor a course for Dual Enrollment, then a student will be considered a Dual Enrollment Student. If the high school does not agree to honor a course for Dual Enrollment, then a student will be considered a Concurrent Student.
