

# A STUDENT'S Journey

## YOUR GUIDED PATHWAY PROGRAM FROM TRIBAL COLLEGE TO UNIVERSITY!

A Student's Journey (ASJ) is a year long program with a 5-week on-campus summer internship experience at the University of Arizona for participating Tohono O'odham Community College (TOCC) and San Carlos Apache College (SCAC) students.

The Southwest Environmental Health Sciences Center and Tohono O'odham Community College have partnered together to create a program that addresses academic transfer barriers for Tribal College students enrolling at 4-year universities. Our staff and collaborating faculty are determined to change the landscape of higher education and workforce on the Tohono O'odham Nation by offering an on campus experience at the University of Arizona that directly serves the needs for TOCC & SCAC students.
