The Early Childhood Education (ECE) Certificate I is designed for students who are dual enrollment or who are seeking entry level work in the Early Childhood Education field.

Program Learning Outcomes

1. Promoting Child Development and Learning: Describe and defend the principles and theories of child development and implement developmentally appropriate activities through mastery of child development for children ages birth to eight years.
2. Building Family and Community Relationships: Demonstrate knowledge of family and community dynamics that support and empower families through respectful and reciprocal relationships within diverse populations, contexts, and Tohono O'odham communities.
3. Observing, Documenting, and Assessing to Support Young Children and Families: Demonstrate proficiency in observation and documentation of children's progress. Includes the use of observation, documentation, and assessment to establish learning goals and activities for the benefit of children's developmental and educational needs.

4. Using Developmentally Effective Approaches to Connect with Children and Families: Demonstrate knowledge of family and community dynamics that support and empower families through a respectful and reciprocal relationship.
5. Using Content Knowledge to Build Meaningful Curriculum: Plan a culturally and linguistically responsive learning environment for young children that is responsive to each child's physical health, intellectual and emotional well-being, and nutritional and safety needs.
6. Becoming a Professional: Demonstrate professional ethics and defend professional decisions based on the knowledge of early childhood theories and practices and the principles of the National Association for the Education of Young Children Code of Ethical Conduct.
