Associate of Arts in Early Childhood Education

An Associate of Arts degree in Early Childhood Education prepares students to become competent early childhood educators that are interested in working in a paraprofessional role with young children and families. The degree is designed for transferring to a university to complete a 4-year degree program, although graduates can also go directly into an early childhood employment setting. Students gain specialized knowledge and implement best practices in early childhood education. ECE graduates are employed in many settings such as Head Start, day-care centers, in-home support services, and other entry level child-centered positions. *Please note that you may be required to obtain a Fingerprint Clearance Card and that some courses may require observation/internship hours.*
